FLEET LINK CAN HELP!

Fleet Link is the State Employees Vanpool Program. This is an employee shared cost program for State of Delaware Employees that provides an alternative transportation method that is cost effective and environmentally friendly.

These vans are rented to groups of 4 or more that divide the cost and receive a pre-tax payroll deduction for the cost of the van.

Included in this rental rate is:

- ✓ Fuel
- ✓ EZ-Pass
- ✓ Maintenance/repairs
- ✓ 24/7 Roadside Assistance
- ✓ Comfortable and Safe transportation
- ✓ Guaranteed ride back to your personal vehicle in the event of an emergency or unscheduled overtime.

FLEET LINK COST SCENARIO:

If a group of 10 employees evenly share the cost of a 15 passenger van the cost per rider would be **\$72.32*(pre-tax) per month.**

This is compared to the average cost of **\$615.00** per month** to drive a personal vehicle 20,000 commuting miles annually.

*Subject to Rate Changes.
** Based on AAA 2016 Driving Cost
